2. The following is an examiner's statement of reasons for allowance:

Regarding **claims 28 and 52**, the prior art of record fails to disclose or suggest the truncating of the audio message done based on customized truncation instructions in the network database. The truncation instructions help the system to determine which messages to be truncated and the truncation length of the message.

Regarding **claim 41**, the prior art of record fails to disclose or suggest the claimed service control point routes the electronic mail message according to a selection of the intended subscriber and the selection includes the subscriber's electronic mail truncation instructions, a plurality of keywords in a sender's electronic mail address list, a plurality of keywords in a receiving electronic mail message's subject and a priority level that will activate the service.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
